<ul style="list-style-type: none"> - Watched administration of needles - Assisted fleece gathering during shearing - Assisted halter training - Moved animals to new paddock - Assisted with spit offs - Entered data into breeders health book - Helped show animals at Timbucktoo Show 			
Between 30-50 words			
Experience Gained			
<ul style="list-style-type: none"> - I now know the correct place to give vitamin injections and vaccinations and what they are for. - I learnt how to skirt a fleece and why we keep the saddle separate - I learnt about paddock rotation and worm burdens - I now know the importance of keeping accurate and up to date records 			
I had a great day with lots of learning opportunities.			
Between 70-100 words			
Comments from Stud/Breeder			
Breeders Information, in minimum 50 words: Please outline how the youth applied themselves, positives, participation, etc. What would you recommend for further learning?			
I.e. Josie participated, listened well, and applied what she has learnt. To further her fleece knowledge, I would recommend Josie go to shows and other studs, and put her hands on as many alpacas as she can. Recommended reading, AAA fleece standards and Cameron Holt's book on fleece.
