

NLIS tags orders helpful hints

Tags can be ordered through the AAA website. There is a tab on the front page menu [Alpaca Tag Order Form - Australian Alpaca Association](#).

Before completing the form make sure your PIC is up to date with the correct contact and address information.

There are 2 types of NLIS tags. Choose which tag you would like and click on the appropriate order form button:

Lightweight Electronic NLIS tags (a button in the ear) with no minimum order volume.

NLIS RFID Rapid Tags (wraps around the ear). Rapid tags must be ordered in multiples of 20.

The tag layout will be printed and look like this. Both tag options will be readily viewed visually without an electronic reader "wand".

Just click "yes" on the order form for the long stem button if applicable. All fields will need to be completed to "Add to cart".

Colour choice

Breeder tags you can choose either the colour scheme by year of birth, or you can choose yellow which is for any year as well as 2021.

The yellow option allows for tags purchased having a greater "shelf life" and can be ordered well in advance.

Year Colour Scheme: 2019 GREEN | 2020 PURPLE | 2021 YELLOW | 2022 RED | 2023 BLUE | 2024 BLACK | 2025 WHITE | 2026 ORANGE

Breeder tags are for alpacas born on your property. Post breeder tags are all pink. Post breeder tags (pink tags) are only used on alpacas not born on your property.

Specific start number choice

For the series number you can choose your number range or you can tick auto flow.

Auto flow selected for the first order will be #00001. When you click autoflow for your next order they will automatically order the next available number.

You can choose your own numbers by selecting "Series Start Number" each time. The first digit can be a number or a letter. As an example, U0001 or 00001. This would have a full number sequence in 2023 starting with your PIC number "ABCD1234" XAUU0001, or XAU00001. It is a 16 digit unique number.

Applicator choice

Both tag options have a separate applicator. These can be ordered via the AAA online shop, or from a local supplier.
